Registration for 2016 has begun!

- Size of each group lesson is **kept small (max 9 pax)** to **ensure individual quality learning**. Each class consists of 90 mins of content-packed, education-rich and mind-stimulating Econs critical learning lessons.
- As some classes are filled up fast, to ensure you secure your preferred timing, please schedule your lessons at least 1 week in advance.
- There is a **limited intake of about 100 students per year (Y1 + Y2)** to ensure the quality of teaching of each of my students;
- If you prefer to learn with your friends, feel free to **form a group of 3 and I will start a group session for you at your convenient timeslot.**
