By Car :

- ✓ Along Upper Paya Lebar Road;
- ✓ Right after Geylang Neighbourhood Police Centre;
- ✓ Turn left when you see Caltex into Arumugam Rd.

FAQ

Q: I have sudden CCA / school commitments. How?

A: For 1 to 1 arrangement, simply let Mr Jeffrey know 1 day in advance to reschedule your class.

Q: Is there a trial class?

A: We do not have a trial class policy. Furthermore, we are perfectly confident of our program that we've provided our money back guarantee for your grades! Your success is assured!

Q: Are there group classes?

A: Due to different Poly teaching different syllabus, it is impossible to form group classes.

FAQ

Q: Why must it be 9 days? Can it be shortened?

A: Base on past experience, 9 days is the minimum period for Mr Jeffrey to finish covering the exam topics & for you to experience significant improvement in grades. Furthermore, economic concepts are generally inter-related. It does not make sense to teach partially.

Q: Do I require any more lessons after 9 days?

A: Typically, 9 days is sufficient to secure a pass. However, if you want to strive further for good grades, you can always schedule more classes with me.

FAQ

Q: Why do you only guarantee a Pass? Isn't it too low?

A: Unlike JC's A level exam, which is 100% weighted exam, Poly's scoring structure is typically based on a few key criterias like class participation (10%), project (20%), mid terms (20%) and final exam (50%). *Note - Different Poly have different scoring system.* Some students may have already failed their project and mid terms prior to my engagement. Thus, they have to score high marks in their final exams in order to get just a Pass.

Normally, if you engage our program early, you should be able to secure at least a B grade.

Q: Will you be the one teaching this program?

A: Yes, I will be spearheading this program and to see all of you succeed personally!
